

HOOKING UP AT CALLAHAN'S

Lyrics and music by Mark Osier

It had ^Gbeen a while since I'd seen some action
When I ^Cfound myself with a mean attraction
For a girl ^Dmy barkeep said was from out of town ^G
All I wanted was a random fling
Turns ^Cout she wanted that very thing
So in no time we were at my place "getting down" ^D ^G

Now it ^{Em}started off quite meretricious
Then it ^{Am}got kinky and outright vicious
And in no time we were screaming in the night ^C ^D ^G
In the morning when I awoke ^{Em}
All my furniture was broke ^{Am}
She was gone and I looked like I'd lost a fight ^C ^D ^G

(spoken) Oh yeah - this was no "licky licky sucky sucky love you longtime" kind of night.
This was a "check the microwave for sex toys" kind of night. Yeah.

I stumbled 'round in the morning gloom
And finally made it to the bathroom
But what I saw there made me pause and scream
You notice something's wrong real quick
When green flame's shooting out your dick
I was starting to think that girl wasn't quite clean

(spoken) I saw that my foreskin was glowing plaid... and I'm circumcised... I said Ooooooooooh
SHIT!

SO I got on the phone to my barkeep.
Said "Harry... I'm in it pretty deep."
And told him all about my tragedy
He said "That girl's in Alien
Babes Gone Wild one, two and ten
And it sounds like she just gave you Space VD.

Now Space VD is quite contagious
It's radioactive and diatomaceous
And even a black hole won't make it stop to grow
But on Earth you cure it as you please
A little melon and broccoli
Oops - there's the truck it's time for me to go."

Now as our phones did disconnect
I thought "are those oral or applied direct?"
But I tried 'em both to avoid any confusion
And as I'm slathering those things on
My mom learned to use her video phone
Yeah... I can't wait for the next family reunion

So I'm covered in melon and broccoli
My apartment's nothing but debris
And the Rigel Clap has given me quite a fright
But I'll take some aspirin for my head
Make up what's left of the bed
And hope she's back at Callahan's tonight!
