

LET IT SNOW - VIKING LYRICS

Lyrics by Mark Osier

TTA: Let it Snow! Let it Snow! Let it Snow! By Jule Styne

Well your village looks so delightful
But our Viking ship's quite frightful
A-plundering we will go
Let it snow, let it snow, let it snow!

Neither we nor the snow are stopping
And your heads off we are lopping
Your chances of life are low
Let it snow, let it snow, let it snow!

When we finish our raid and leave
You'll be left homeless there in the storm
But if you stay right there and grieve
While it still burns you'll be warm

Well it doesn't show signs of stopping
And like flies you all are dropping
Off to our next stop we go
Let it snow, let it snow, let it snow!
