

SHUTTLE BOUND FOR GLORY

Lyrics and music by Mark Osier

In a world where rockets fly the starlanes
More fast and far than people can conceive
In a world where science fills the mind and faith has all been left behind
People say that I am foolish to believe

But I see a world that's full of sadness
People don't know how they'll make it through the day
For holograms and sensurround can't give the peace that I have found
Because I know that someday I'm going away

CHORUS

I'm gonna leave this world on a shuttle bound for glory
I don't mind flyin' on a wing and a prayer
When it's time to leave this life and rise into the air
There's a shuttle bound for glory waitin' to take me there

This shuttle - it doesn't take a ticket
Your wealth and power can't help you to prepare
But there's one thing that I have found - when that shuttle leaves the ground
If you're sittin' with me you must have paid your fare

BRIDGE

when the shuttle rises up we'll leave this world behind
All sadness gone we'll live as one and joy is what we'll find
No suffering, pain, or death - we'll live forever free
In peace and love with God above for all eternity

So come and get ready for the journey
The shuttle could be coming any day
And if you're filled with joy, not fear, when the day is finally here
Then come sit down beside me and we'll fly away
