

THAT'S WHAT BUBBIES DO

Lyrics and Music by Mark Osier
For Leah

INTRO: G D C

I met Lucy the same day I met your daddy
(I was) a stranger but she was friendly as can be
And I didn't know why you called your dog Bubby
But it didn't take me too much time to see
There was something more there than there seemed to be

CHORUS

(cuz) Bubby's with you all year round
Knows when life has got you down
And when you take your rest she'll lay down next to you
Bubby fills your heart with pride
Will stay always by your side
Is a loyal friend who's with you through and through
Don't ask me why - it's just what Bubbies do

As days went by we built up something special
It was clear for anyone to see
I was still surprised that day you called me Bubby
But I could tell from how you looked at me
I was lucky as a man can be

CHORUS

(Cuz) A Bubby's patient and prepared
Kills the big bugs if you're scared
He'll take your hand and always stand by you
And with the look there in your eyes I began to realize
That's an awful lot for a man to live up to
But I'll do my best - 'cuz that's what Bubbies do

(guitar solo)

A Bubby listens when you're mad
Brings you chocolate when you're sad
Helps you find your way when you don't know what to do
As we move on through the years I'll share your laugh - I'll dry your tears
And whatever comes, you know we'll see it through
I'll love you - 'cuz that's what Bubbies do
